

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

April 19, 1999      LB 637

all the ex-officio clerks of the court had a mail interview done, so that each one of the clerks of the court had an opportunity to provide the information about collection and disbursement within their county to the study. And that was...all counties that...that responded, and I would need to check but I believe that...that they had...obviously all the...

PRESIDENT MAURSTAD: One minute.

SENATOR BROWN: ...the counties that did face-to-face interviews and then I think that all the counties that had written interviews also responded. All that was included in the study. But as I would keep reminding you, because wage withholding cannot be...must be centralized, then when you take that 50 percent out, it makes it very hard to have the rest of the system be more cost effective to have it as a decentralized system. She does not know where the efficiencies are going to come from in the state of Nebraska since her time since December has been partially devoted to recovering money that the state has for one of the people that she should be paying, and they've had it since December and they can't make up their mind where to turn it loose. One of the things that bothers me and leads me to vote for the bracket motion was in
